SOA3881010 (SPT Oil Cap)  
SOA3881000 (SPT Battery Hold Down)

## STI SHORT THROW SHIFTER

Significantly reduces shift throw lengths for crisper shifts and sportier driving.  
C1010AG000 (5 M/T)

## SPT HIGH FLOW AIR INTAKE SYSTEM

The SPT High Flow Air Intake is constructed of 319 diecast aluminum, manufactured to ensure the smoothest high flowing bends. Each system includes a silicone reinforced boot, anti-vibration mounting system, stainless steel t-bolt clamps, and a SPT 4-layer cotton gauze filter with a built in velocity stack for smooth air flow. The intake is coated in a new gunmetal gray-textured powder-coat finish. Installation of High Flow Air Intake System will result in increased turbo charger and diverter valve air flow sounds during operation. This condition is indicative of normal operation.

- SOA8431010 (Air Intake)
- SOA8431020 (Air Intake Replacement Filter Kit) (GT Models)

## SPT HEAT SHIELD

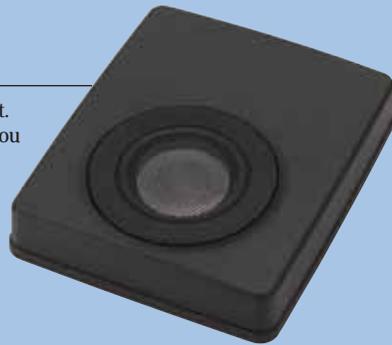

The SPT Heat Shield helps ensure that the SPT Intake is able to supply the engine with cool air, which reduces the loss of power that comes from a heated intake charge. Cooler air is drawn from inside the passenger front wheel well and behind the headlight - not from the hotter areas surrounding the turbocharger, engine and radiator. Unlike a traditional cold-air intake, which places the filter element as low as possible in the vehicle, this setup helps to supply cool air, limiting the risks of water ingestion.
